Legislative Measures Following Acceptance of Dunkel Draft

1898. SHRI G. PRATHAPA REDDY : Will the Minister of COMMERCE be pleased to state :

(a) the legislative measures proposed to be taken as a follow up of the Dunkel proposals ;

(b) the laws which are likely to be amended immediately ;

(c) the laws which will require amendments later on ;

(d) the date by which these amendments are likely to be completed ; and

(e) Governments's commitment in this regard ?

THE MINISTER OF COMMERCE (SHRI PRANAB MUKHERJEE) : (a) to (c) The Final Act of the Uruguay Round enjoins upon Members that they bring their laws, regulations and administrative procedures into conformity with the obligations provided in the Agreements. To safeguard our interests and comply with our obligations, amendments are likely mainly to the Customs Tariff Act (in respect of Anti-Dumping and Counter-vailing Duty provisions) the Indian Copyright Act ; the Trade and Merchandise marks Act ; the patents Act ; the Industrial designs Act ; laws and regulations to deal with restrictive trade practices etc. We would need to consider fresh legislation in the areas of geographical indications, layout designs of integrated circuits ; undisclosed information ; plant variety protection ; safeguards. In some cases like safeguards, anti-dumping and countervailing duties, plant variety protection etc., it may be desirable to initiate legislative measures expeditiously to be able to take advantage of the provisions of the Agreements. We would also need to amend the Patents Act early to provide for pipe-line protection. The other areas of intellactual property rights would need suitable legislative measures to be put in place after a transition period of five years or ten years as the case may be.
